Accessibility Browser Extensions

Le texte français est donné à la suite.

Links for Accessibility testing Browser extensions

Accessibility Insights

To request to have Insights for **Windows** installed on your desktop from the NSD Application Catalogue:

- Navigate to [NSD](#)
- From the **Application Catalogue**, click the **Commercial Software** tab, then select the *Accessibility Insights for Windows* link and click *Install*.
- The installation should take approximately 2 days.

Add the [Accessibility Insights Browser Extension](#) directly within your browser (for Chrome and Edge):

For Web

Accessibility Insights for Web helps developers find and fix accessibility issues in web apps and sites. This browser extension for Chrome and the new Microsoft Edge runs on Windows, MacOS, and Linux computers.

W3C HTML validation

Add your HTML source code directly to the **Validate by Direct Input** field in the W3C Markup Validation Service, to validate HTML compliance:

The image shows the W3C Markup Validation Service interface. At the top, there are three tabs: 'Validate by URI', 'Validate by File Upload', and 'Validate by Direct Input'. The 'Validate by Direct Input' tab is selected. Below the tabs, the text 'Validate by direct input' is displayed. Underneath, there is a prompt 'Enter the Markup to validate:' followed by a large, empty text input area. At the bottom left of the input area, there is a link 'More Options'. At the bottom right, there is a 'Check' button.

Validation HTML du W3C

Ajoutez votre code source HTML directement dans le champ **Validate by Direct Input** du service de validation du balisage du W3C, pour valider la conformité HTML :

The image shows the W3C Markup Validation Service interface. At the top, there are three tabs: "Validate by URI", "Validate by File Upload", and "Validate by Direct Input". The "Validate by Direct Input" tab is selected. Below the tabs, the heading "Validate by direct input" is displayed. Underneath, there is a prompt "Enter the Markup to validate:" followed by a large, empty text input area. At the bottom left of the input area, there is a link that says "More Options". At the bottom right, there is a button labeled "Check".
